

Kefiran™ Supreme: Support Gut Health & Digestive Balance*

Designed to support gut health, digestive balance, and microbiome comfort every day. Now with 2× the Kefiran polysaccharide of the original formula (40 mg per serving), plus *Saccharomyces boulardii*, *Bacillus coagulans*, prebiotic FOS, and a fulvic mineral blend (calcium, magnesium, manganese) to support digestive comfort, gut balance, and a resilient microbiome - without dairy or refrigeration.*

- 40 mg kefir polysaccharide - 2× the original formula*
- With *Saccharomyces boulardii* and *Bacillus coagulans* for daily digestive support*
- Prebiotic FOS to nourish beneficial bacteria*
- Fulvic mineral blend (calcium, magnesium, manganese) for supportive balance*
- Helps reduce occasional gas, bloating, and diarrhea while supporting gut balance*
- Dairy-free, lactose-free, gluten-free, and no refrigeration required

Product Description

Kefiran™ Supreme is an upgraded probiotic supplement inspired by the traditional benefits of kefir - without the dairy. It offers a different approach than standard probiotics by combining 40 mg of kefir polysaccharide - twice the amount found in the original Kefiran - with clinically researched probiotic strains (*Saccharomyces boulardii* and *Bacillus coagulans*), prebiotic FOS, and essential trace minerals to support digestive balance and microbiome health.*

Together, these ingredients promote gut balance, support a diverse microbiome, and help ease occasional digestive discomfort - such as gas, bloating, and diarrhea - while contributing to overall gastrointestinal wellness.*

An Easier Way to Enjoy the Benefits of Kefir - Without the Dairy

Traditional kefir drinks can have an unusual taste and texture, and dairy isn't ideal for everyone. Kefiran™ Supreme delivers key kefir-derived benefits - especially kefir polysaccharide - in a convenient capsule. It's a simple way to support the gut environment, digestive comfort, and microbiome balance - without dairy, lactose, gluten, refrigeration, or added sugar. Just take two capsules daily.*

How It Works: 5 Powerful Ingredients Working in Sync

1) Kefiran Polysaccharide (40 mg per serving)

- Supports a healthy gut lining and microbial balance*
- Encourages beneficial bacteria growth without dairy or fermentation*
- Helps promote regularity and ease occasional discomfort*

2) *Saccharomyces boulardii*

- Resilient, shelf-stable probiotic yeast for digestive support*

- Helps manage occasional diarrhea (including travel- or antibiotic-associated)*
- Supports balanced immune response in the gut*

3) **Bacillus coagulans**

- Spore-forming probiotic survives stomach acid*
- Helps break down carbohydrates and lactose to reduce gas/bloating*
- Supports digestive comfort and regularity*

4) **FOS (Fructooligosaccharides)**

- Prebiotic fiber that feeds Lactobacillus and Bifidobacterium*
- Promotes balanced gut ecology and gentle regularity*

5) **Fulvic Acid Mineral Blend (Calcium, Magnesium, Manganese)**

- Supports enzyme activity, nutrient utilization, and smooth muscle function*
- Helps maintain digestive comfort and gut barrier health*

Why These Ingredients Work Better Together - Synergy

Kefiran helps support the gut environment and microbial balance; *S. boulardii* supports stability during stress or antibiotic use; *B. coagulans* helps support digestion and nutrient utilization; FOS nourishes beneficial bacteria; and minerals support enzymatic activity, motility, and a calm, regular digestive rhythm. Together, they offer broader day-to-day digestive support than a standard single-focus probiotic alone.*

Probiotic Protection You Can Trust

Unlike probiotic bacteria, *Saccharomyces boulardii* is a yeast - naturally resistant to antibiotics. While antibiotics can't tell the difference between "good" and "bad" bacteria, often reducing levels of both, *S. boulardii* remains active to help maintain balance. Research shows it supports the regrowth of healthy intestinal flora and reduced risk of antibiotic-associated diarrhea in both children and adults. This makes it a valuable ally for digestive comfort when your system is under stress.*

Suggested Use

Take 2 capsules daily, with a light meal.

Frequently Asked Questions

How is Kefiran™ Supreme different from the original Kefiran?

It provides twice the amount of kefir polysaccharide (40 mg per serving) and adds *Saccharomyces boulardii*, *Bacillus coagulans*, FOS, and fulvic minerals for broader gut support.*

Is it dairy-free and vegan?

Kefiran™ Supreme contains no dairy, lactose, or animal-derived ingredients, and is gluten-free and vegetarian suitable.

Can I take it daily?

Yes. It's designed for daily or long-term use to help support digestive balance and comfort.*

Does Kefiran™ Supreme need to be refrigerated?

No. Kefiran™ Supreme is shelf-stable and does not require refrigeration. Its probiotic strains - *Saccharomyces boulardii* and *Bacillus coagulans* - are resilient and stable at room temperature, making it easy to store and travel with. Please be sure to store in a cool, dry place at room temperature (68-72°F), away from direct heat, light, and moisture.*

Why were the original 7 *Lactobacillus* strains replaced?

The original strains were beneficial, but Kefiran™ Supreme uses robust, well-studied probiotics such as *S. boulardii* and *B. coagulans* that better withstand stomach acid and provide broader day-to-day digestive support - especially during travel, antibiotic use, or periods of gut imbalance.*
